## Custom-coded websites for founders who'd rather hire a person than a shop.

Last year I built a school site in 7 days. Other agencies quoted 6 months. That's the kind of timeline I win — most marketing sites & MVPs ship in 3–4 weeks. From \$3,000. You own every line.

Our own bet on where agencies go next. One credit, one prompt, any language — paired with Claude, GPT or Gemini. Five free credits while we iterate.

**CultXberserk** ↗

BRAND · D2C

A gothic apparel label built around the world of Berserk. Heavyweight, garment-dyed tees that are hand-numbered (0001–0666) and never reprinted — each carrying a "Brand of Sacrifice" seal at the neckline. The storefront is custom-coded, so the lore and the buy flow are one experience.

TRAVEL · BOOKING

A revenue-share booking platform for resorts and stays across the Himalayas. Built for global travellers, not domestic alone — LLM files + GEO optimisation drove a visible spike in AI-referred traffic.

## Dharamshala Tours ↗

TRAVEL · CMS

Three school friends in Kangra, one WhatsApp-first booking flow. We skipped the accommodation-listing pattern the competition uses — the site is part of ~1,000 travel packages booked every month.

## Redline Studios ↗

BRAND · E-COMMERCE

A brand born out of speed. F1 track-styled loaders, race-car geometry, hand-picked racing colours. Nothing templated — every element hand-selected.

## Nandini Travels ↗

TRAVEL · LOCAL

Kangra's most-positively-reviewed taxi operator was losing every lead to Google Maps. Their old site was down. We rebuilt it in Next.js with an on-site booking form, WhatsApp CTA, outstation packages and an airport-pickup option. Direct bookings now flow through the site.

## WHAT I DO

### Marketing sites

Astro or Next.js. Sub-second LCP, designed in code on a real URL by day three.

## Stores

Custom storefronts with Razorpay or Stripe. No Shopify, no theme marketplaces, no builder lock-in.

## Web apps

Admin panels, dashboards, admissions portals, booking flows. Shipped in custom code, run by the client's own team.

## AI features

Claude, GPT, Gemini integrations. I run my own AI product (WebSeek.ai) on all three.

## Conversion copy

Homepage / pricing / landing-page copy written to the words your buyers actually type.

## Ongoing retainer

Monthly billing, no contract. Most clients keep me on for 6–12 months after launch.
